

# LaserScrape LE300

Laser Machine Control System

**Perfect for**  
**Agricultural**  
**Land Levelling**  
**Construction**  
**Groundwork**  
**Sports Fields**

**AMA LASER**  
*Built to last*

**AMA LaserScape LE300** is an extremely rugged complete system with handy remote control. Simple to use and completely versatile. Proportional laser detection, gives the best possible accuracy from all laser levels within their range. Adjustable hydraulic valve and pulse period gives the best blade control.

- High intensity LED's mean the displays are clearly visible even in direct sunlight.
- Fully automatic or manual control, via control box and remote.
- 360° laser detection for constant readings.
- Fully water proof adds to reliability.
- 0-30mm adjustable accuracy meets all applications.

#### TECHNICAL SPECIFICATION

##### LaserScape LE300 Detector:

**Range**..... Up to 1 km with AMA DLx transmitter  
**Detection angle**..... 360°  
**Powersource** ..... 12VDC (Optional inbuilt batteries)  
**Sealed** ..... IP67; Fully waterproof

##### CB300 Control Box:

**Control**..... Manual/automatic. Accuracy.  
Hydraulic period, pulse and balance.  
**Power Source** ..... 12VDC  
**Sealed** ..... IP67, Fully waterproof

##### RC300 Remote Control:

**Control**..... Manual/automatic. Blade up.  
Blade down.  
**Sealed** ..... IP54, Rain protected.

**DLx** Dual Grade  
Transmitter

**DL50** Single Grade  
Transmitter
